

Quality Management System v.3

7a. Quality Policy

ATL is committed to the highest standards of component machining for a wide range of sectors & industries. We listen to our customers, continually reviewing our processes of product realisation in line with business needs, maximising the efficiency of our resource management system. The principal elements of our policy are: -

- a) To develop & maintain a Quality Management System satisfying the requirements of BS EN ISO 9001: 2008 which forms the framework for achieving continual improvement, complete customer satisfaction & full realisation of all company objectives.
- b) To focus on the requirements of our customers, establishing levels of communication capable of fully determining their needs & expectations.
- c) To establish & maintain an infrastructure capable of supporting all company activities & realising all company objectives.
- d) To identify scope for improvement in every aspect of the company's activities, devising & implementing effective solutions throughout.

7b. Quality Objectives

A copy of the current ATL Quality Objectives can only be requested from the Managing Director or the Quality Representative.

The ATL Vision

With a full range of machining services, experienced staff and forward thinking strategies, we aim to exceed all our customer requirements.
